### **HAMMERGLASS IS BREAKING INTO THE MARKET AT THE ELECTRA MINIG EXPO IN JOHANNESBURG SOUTH AFRICA**

**Vandalism, burglaries or accidents; when the glass is broken it costs money, time and the inconvenience of it all, is priceless!**

#### **History**

Hammerglass was started in 1993 after working together with the City of Gothenburg's own insurance company, Gota Lejon, to find a way to reduce the cost of glass damage. The mission was clearly defined: "Find a solution or we'll start bricking up the windows!"

After developing systems for external mounting of unbreakable glass, we started thinking about developing insulating glass with the unbreakable properties. The project was successful and today, Hammerglass can provide 5 years' of full insulating glass warranty on Hammerglass Insulate. The unique coating on all Hammerglass sheets provide excellent anti-scratch properties, and 99.96% UV protection

#### **Hammerglass should not be confused with polycarbonate in product specification:**

- \* 300 times stronger than ordinary glass
- \* Lightweight - half the weight of glass
- \* Unique coating of silicon oxide provides improved abrasion resistance making it highly resistant to chemicals
- \* UV-resistant (99.96%)
- \* No moisture ingress

#### **Hammerglass Vehicle Glass for Norway**

CAT, Doosan, Hitachi, JCB or Volvo? Unbreakable Hammerglass is now available for new contractor machinery all over Norway. Existing glass in older machines can be replaced with Hammerglass.

Hammerglass has won another major noise barrier project in Finland. This time, the building contractor Ruukki, placed an order for unbreakable Hammerglass sheets for a newly constructed bridge south of Helsinki. The order included 700 Hammerglass noise reduction screens. In the beginning of February Hammerglass secured a new order for the supply and installation of unbreakable glazing for Vaxjo Freight Yards in Sweden. Hammerglass will be installed in windows, the roofs of escalators and elevator connections, and a footbridge. Delivery and installation took place during April and May 2014. In 2013 Hammerglass AB delivered ceiling and walls for Stage I in Växjö Freight Yards.

In 2013 the Hammerglass sales volumes increased by 36%. Export sales accounted for approximately 20% of total sales.

**Hammerglass is certified according to Security Class P8B, which is equivalent to the highest safety rating for anti-burglary grilles and roller shutters.**

**Come and see us at the Expo, stand: M 2 - 14**
